Do you know about “**Senior Planet Montgomery?**”
County officials recently attended the graduation ceremony for Senior Planet Montgomery's Class of 2017. Senior Planet Montgomery is part of the County's ***ultraMontgomery*** initiative. The program aims to teach older adults to use technology to increase self-sufficiency and grow the market for digital services among the 20% of the County that is 60 years old or older, and to expand employment and entrepreneurship among older adults. This is the second cadre of older adult technology graduates who have completed a 10-week technology course. For more details about the program, visit:
